

Product Descriptions

Gloo Gateway (formerly Gloo Edge) is a feature-rich, Envoy-powered, Kubernetes-native API gateway and ingress controller. More information about Gloo Gateway (Gloo Edge API) can be found at <https://docs.solo.io/gloo-edge/latest/>.

Gloo Mesh Enterprise is a standards-based, scalable, secure Istio service mesh for single and multicluster environments, using the Gloo Platform APIs. More information about Gloo Mesh Enterprise can be found at <https://docs.solo.io/gloo-mesh-enterprise/latest/>.

Solo Enterprise for kgateway is a cloud-native Layer 7 proxy based on the Kubernetes Gateway API and the kgateway project. More information about Solo Enterprise for kgateway can be found at <https://docs.solo.io/kgateway/latest/>.

Solo Enterprise for Istio enhances an Istio service mesh with enterprise support, hardened Istio distributions, multi-cluster connectivity, and observability. More information about Solo Enterprise for Istio can be found at <https://docs.solo.io/istio/latest/>.

Solo Enterprise for kagent provides full security, policy, and compliance controls to orchestrate AI agents across clouds. More information about Solo Enterprise for kagent can be found at <https://docs.solo.io/kagent/latest/>.

Solo Enterprise for agentgateway provides a single point of control to secure, connect, and observe your AI ecosystem from LLMs to agents. More information about Solo Enterprise for agentgateway can be found at <https://docs.solo.io/agentgateway/latest/>.

Solo Enterprise for agentregistry is a unified control plane for managing, securing, and observing agentic assets across runtime environments. More information about Solo Enterprise for agentregistry can be found at <https://docs.solo.io/agentregistry/latest/>.

Solo Support for Istio is available in two tiers: premium and basic. Basic tier provides access to Solo's long term support and FIPS Istio image streams. The Premium tier includes Basic tier features and adds direct customer support channels for enterprise support and onboarding. More information can be found at <https://www.solo.io/istio-support>.
